

THE Rolling RESIDENCE

Apartment-style living in a caravan means feeling at home while on holiday

The caravanning lifestyle concerns many things. It links the thrill of exploration with the magic of memory-making.

It lets us commune with nature while discovering unforgettable adventure alongside friends and family. One thing it should never be about is compromise.

The folks at Cell Caravans take their mission seriously. Their aim is to provide luxury, space, and style to vanners, transforming any journey into a five-star

holiday experience. By combining rock-solid construction, leading-edge concepts, modern design, and luxurious appointments into their Peninsula model, they have created a vehicle free from compromise.

Innovative design elements like the external kitchen add an extra dimension to the Peninsula's off-road attractiveness and interior novelties like the swivel TV cabinet and slide-out make life easier, provide more time to relax, and give you unconditional permission to comfortably enjoy your travels.

EXTERNAL FEATURES

FRAME CONSTRUCTION: Alumi A Welded aluminium

OUTER SKIN: Lamilux 4000 laminated gel-coat fibreglass walls

INSULATION: Fully insulated sandwich-panel walls, roof and floor

WATER TANKS: 136L fresh water, 144L grey water, 144L black water

WHEELS: 14in wheels

SUSPENSION: Dual axle, Trailair suspension system with Equa-Flex rubberised suspension enhancement, leaf spring

AWNING: 18ft Dometic power awning

BOOT: Large pass-through tunnel boot at front of caravan

GAS CYLINDER SIZE: 2 X 9kg

HOT WATER: Suburban hot water service, gas and electric

12V ELECTRICAL SYSTEM: 30A Electro smart-charger with 240V converter

The Peninsula's amazing double-length slide-out creates an enormous living space. The slide-out is fully automated, creating an additional space 1m deep and 3.6m in length, transforming the caravan into an apartment on wheels. Once extended, the additional windows allow more natural light into the caravan.

A highlight of the Premier Entertainment system is this 22in LED television/mirror configuration. The built-in swivel design allows for the screen to be viewed from either the bedroom or the lounge area. You can load your DVDs or CDs here, and manage radio and iPod functions from this central location. The centre wall and adjacent curtains offer added privacy to the bedroom.

Recessed burners on the Thetford cooktop allow for a flush mounting surface when the glass lid is closed. One of the three available gas burners is a rapid burner, allowing you to cook meals faster and more efficiently. The double sink stainless steel sink features an extended mixer tap for hot and cold running water.

The slide-out design of the lounge opens up the interior space of the Peninsula even wider. This provides even more freedom to move about the cabin. The comfortable couch reclines with separate footrests on each side and is perfect for relaxing while watching a movie. The café-style dinette converts into a single bed, creating additional sleeping space. Overhead cabinets provide plenty of space for storing kitchen essentials.

INTERNAL FEATURES

FRIDGE: 185L 2 x door auto select three-way Dometic

SINK: Double sink with 2 x sink covers and extender mix tap

COOKING EQUIPMENT: Thetford Spinflo Topline Hob, 30L convection oven/grill/microwave

ENTERTAINMENT SYSTEM: Jensen Premier entertainment system, CD/DVD player, radio, MP3 iPod connectivity, internal and external speakers, 22in LED television

LIGHTING: 12V LED lighting system

SMOKE ALARMS: Smoke alarm and carbon monoxide gas detector

CABINETRY: Antique white or toasted pecan cabinets, overhead cabinets in slide-out lounge, bedroom and kitchen areas

LOUNGE: Lounge and dinette in double slide-out, comfortable recliner couch and wide café-style dinette folds into a single bed

MAIN BED: Queen-size bed

PRIVACY SCREENS: Curtains separating bedroom and lounge area

BATHROOM CONFIGURATION: Ensuite bathroom, shower with glass doors, flush toilet, sink and vanity and linen cupboard

PRIVACY DOOR: Solid door

TOILET: Thetford flush toilet

SHOWER HEAD: Chrome shower head with extra on/off switch

A grey nomad's dream, the Peninsula offers true apartment-style living. The spacious interior was designed with extended vacations in mind. Cabinetry is available in either Antique White (as photographed) or limited-edition Toasted Pecan. Durable timber-finish floors run along the thoroughfare while carpeting heightens the homey feel of the cabin. Areas designed for relaxation, like the lounge and dinette, are given this plush and pleasant finish.

A massive 185L Dometic combination fridge and freezer gives you plenty of space for stocking all of your favourite food and drink. This two-door model is equipped with automatic energy selection technology that allows the fridge to automatically select between a gas or electrical energy source to maximise efficiency and minimise the drain on available resources.

Separated from the main living area by privacy curtains, the Peninsula's bedroom is built for comfort. The bed is a true queen-size, measuring a full 152cm x 203cm, with plenty of room to walk around it. Overhead cupboards and side cabinets provide ample storage for bedding and clothes. Variable LED lighting lets you set the mood.

RV PROFILE

CELL CARAVANS – PENINSULA

The Peninsula's cutting-edge design unites internal and external living to create one marvellous caravanning experience. The outdoor kitchen is an addition that provides unique cooking opportunities. Complete with its own sink, fridge, and SMEV two-burner cooktop, this external station lets you enjoy the touches of a full-dress kitchen and the beauty of the bush at the same time.

Frosted glass doors add a familiar touch to the full-sized shower, which is raised and sealed to prevent water from reaching the rest of the van. Rounding off the extra-large ensuite is a Thetford flush toilet, sink, vanity, and over-sized linen cupboard for towels and toiletries.

The 14in wheels guide the Peninsula through the bush while a dual-axle creates added stability. The Trailair suspension system is equipped with Equa-Flex rubberised equalisers. These absorb road shock and vibration, cutting down on coach movement and reducing damage to the trailer and cargo.

Forget ever having to hand-crank your trailer up or down again. The electronic tongue jack effortlessly raises and lowers it for you. With a 1588kg capacity, the automatic hitch is strong enough to break the bond between the trailer tongue and hitch ball when they are stuck. The LED light makes night-time operation a snap.

FREE LEATHER UPGRADE
