

Feel at Home

The new 2014 Homestead from Cell is bursting with features and the luxuries of home

Grand in design and packed with innovation that goes completely off the scale, the Homestead from Cell Caravans is simply luxurious – and now it's updated for 2014 with plenty of new features. Sleeping the whole family comfortably across two bedrooms, with plenty of space for entertaining the extended family, the Homestead is roomy and well appointed. You'd think we were talking about a dazzling

off-the-plan apartment project – this affordable family van is a delight.

Designed and customised in Victoria with expertise and enthusiasm, Cell Caravan's team of highly qualified engineers and local caravanning experts has designed the Homestead specifically to contend with Australia's all-round weather conditions. Constructed in the US to strict Australian compliance standards, all Cell Caravans are value for money and of the highest quality.

At 8.53m (28ft) in length, including a complete outdoor kitchen and shower, a huge slide-out lounge room, and sturdy internal and external design features, the Homestead lifestyle is one of comfort and extravagance. Here, you can take it all with you – including the two kitchen sinks.

With a company mission of making a customer's caravan purchase and use an easy and pleasurable experience, it's not hard to understand why the Cell Homestead has people talking and turning heads all over Australia.

EXTERNAL FEATURES

- FRAME CONSTRUCTION:** Welded aluminium
- OUTER SKIN:** Lamilux 4000 fibreglass
- INSULATION:** Insulated throughout
- WATER TANKS:** 136L
- WHEELS:** 14in

- SLEEPING CONFIGURATION:** Queen-size bed + 4x singles + 2x king single fold-out
- PRIVACY SCREENS:** Concertina doors bedrooms
- BATHROOM CONFIGURATION:** En suite
- TOILET:** Thetford

Why not host a bake-off in your huge indoor kitchen? You'll be creating masterpieces in no time with the European-style counters, including a double sink, water filter, microwave oven+grill combo, and a three-burner Thetford gas stove. The 185L three-way fridge by Dometic provides plenty of space to conveniently store all your vegetables and meat for plenty of happy weeks on the road.

The ensuite bathroom has an oversized shower, toilet and vanity with plenty of cupboard space above and below. The 12V ceiling vent runs an extractor fan to remove excess moisture during your steaming hot showers, and acts as a fan to circulate cool air on those hot days. The air-conditioning ducts mean that you'll always stay toasty warm, even in the peak of wintery conditions. New for the 2014 model, Corian bench tops in the bathroom and the kitchen provide a solid and long-lasting surface that is easy to clean and elegant in appearance.

At the front of the Homestead, you'll find the spacious pass-through tunnel boot. With fold-up doors on both sides of the caravan, it is easily accessible and will store those bulkier items. Located inside the tunnel boot is the 30A Electro Smart Charger with protective casing, which comes standard with the Homestead. Accessible from the boot area is one of the brand-new features of the 2014 model – the upgraded 12V power stabilising legs. Here, you'll find the switches to entirely retract the legs for a streamlined and attractive chassis while travelling.

Forget worrying about the winding, with a 12V front power jack that allows you to lift the caravan on and off your car with zero effort. You will be relieved to know that it is no longer a scary experience winding on and off in the dark, with a handy built-in night light. The winch also contains a manual override button in case of power loss. Also mounted on the A-frame are two 9kg gas bottles, safely encased in a hard plastic covering.

Back into that perfect spot and watch your fellow caravanners' eyes pop out in amazement as you extend the Homestead's huge slide-out. At the push of a button, extend your new lounge room within just 30 seconds. When fully extended, the slide-out gives an extra 1m (3ft 3in) of depth along a massive 3.75m (12ft 3in), creating a space big enough for the whole family to enjoy!

Sealed tightly from dust and rain, the lounge contains a U-shaped dining area as well as a sofa, both of which convert into king single beds. When fully extended, the windows on all three sides of the slide-out will provide your interior with fresh light and flowing air. Plenty of storage is located under and above the sofa and huge pull out drawers are located under the dinette.

'Innovation on a grand scale' is the motto the Homestead designers live by. Sometimes described as a luxury apartment space with lots more, the craftsmanship and clever use of space by the team at Cell provides something special to meet the needs of the Australian market. There are plenty of options available to suit your needs and your budget, from leather interiors to a complete solar package.

You'll have plenty of space to accommodate your many neighbours, all looking for an opportunity to have a stickybeak inside your new home-away-from-home. The Heki ceiling hatch located in the centre of the lounge provides ample opportunities for fresh air to circulate and fill the space with light.

RV PROFILE

CELL CARAVANS HOMESTEAD

To ensure your van can combat Australia's tough climate without hesitation, the Homestead is constructed from Alumi-X welded aluminium that sits under an outer layer of Lamilux 4000 fibreglass walls. The foam brick insulation in the walls and roofing, as well as insulation batts in the floor, give you the perfect climate-controlled home from which to explore this amazing country.

For most of us, the reason we go caravanning is to enjoy our beloved great outdoors. You won't have to go far to do that with the Homestead – in fact, you won't have to leave your rig at all. Take two steps to your left to find your impressive outdoor kitchen, providing everything you need to make the most of life outdoors. It's all covered here with a 12V WAECO drinks fridge, a two-burner gas stove, an extra sink and even a gas bayonet so you can complete the set-up with your own BBQ. Now you can spend those balmy evenings laughing, sharing stories, and cooking up a storm.

There is plenty of indoor and outdoor entertainment available on board the Homestead. The 22in HDTV screen is mounted on a swivel bracket which means you can catch up on the news from the living area, and even relax with a DVD from the comfort of the bedroom. It's also easy to find the best signal strength with the inbuilt antenna. The stylish Jensen Premier entertainment system contains a DVD/CD player and radio+MP3 with iPod connectivity. Your sound system links effortlessly to the in-ceiling and outdoor speakers for crystal-clear sound quality wherever you are.
