

# On the RIGHT TRACK

Introducing a brand new model that puts a fresh twist on the classic idea of luxury touring

Since they began back in 2010, Cell Caravans has always been keen to bring the best and latest features from the biggest RV markets in the world right here to Australia. By carefully designing floorplans and selecting features ideal for local conditions and then applying a few finishing touches and a bit

of Aussie tailoring to their range, the end result has been a fleet of vehicles that offer vanners that ideal combination of luxury and function.

The Track is the latest addition to Cell Caravans' ever-growing fleet of quality vehicles and while it's loaded with all kinds of exciting new features, it still delivers on the same fundamentals of many of their other

models like providing real apartment-style living on the go.

From its space-maximising slide-out to extra storage opportunities and full-size kitchen, bedroom and ensuite configurations, The Track is the next generation of Cell's dynamic vehicle lineage and an innovative new van destined to take your lifestyle to the next level.

With its 185L overall capacity and the ability to run efficiently off either your 12V, 240V or LPG supplies, your Dometic three-way fridge and freezer combination also makes use of special automatic energy selection (AES) technology to optimise power by intuitively selecting between power sources depending on their levels. Meanwhile, your double-glazed windows, also from Dometic, provide gorgeous views while working to maintain comfortable temperatures thanks to their insulative properties and all come fitted with fly-screens and privacy blinds for total control over your conditions inside the cabin.

### EXTERNAL FEATURES

- ANTENNA:** Winegard Sensor
- FRAME CONSTRUCTION:** Aluminium welded
- INSULATION:** Sandwich panels in walls/roof; insulation in floor
- OUTER SKIN:** Fibreglass
- SUSPENSION:** Leaf spring
- WATER TANKS:** 136L fresh, 144: black/grey tanks
- WHEELS:** 15in
- TYRES:** 15in
- AWNING:** 12V powered Dometic
- BOOT:** Tunnel
- GAS CYLINDERS:** 2 x 9kg
- HOT WATER SYSTEM:** Suburban gas/electric
- ELECTRICAL SYSTEM:** Epower battery charger

The Track's private ensuite configuration is situated at the rear of the van, behind its own solid door, keeping it thoughtfully separated from the rest of your interior. Inside, you'll be able to experience a mix of different luxury appointments, each designed and smoothly incorporated to make your travels as comfortable as possible. Your glass bowl sink is fitted with a stainless steel flick mixer tap that's supported by your Suburban hot water system, while the extra-large, glass-enclosed on-board shower has a full-size door of its own for a secondary level of privacy.

The white, stylised cabinetry from none other than the Martha Stewart Collection gives a contemporary shape to The Track's interior structure, so you'll have no trouble at all negotiating the kitchen area of your van, which is packed with premium amenities. A three-burner gas stove plus the microwave just above it will provide you with plenty of options for cooking while the stainless steel double-sink further down the benchtop gives you plenty of room for clean-up. You can also operate your on-board entertainment system from the kitchen, with controls that run your Fusion 700 Series stereo and the DVD/CD/iPod playback capability of your 22in TV.

By combining great looks, high performance and long-lasting durability with quick and easy setup and pack down, the Dometic 12V Power Awning takes all the might and convenience of a motor-driven awning and makes it accessible to you. The Power Awning's universal hardware makes one-person operation smooth and efficient.

The indoor/outdoor living space is combined with an exterior television port, USB phone charging capabilities, outdoor speakers and LED night lights while the awning itself keeps you safe from wet weather and UV rays.

With the progressive design of Winegard's bi-directional Sensor HV antenna, you're able to receive both horizontal and vertical signals from all Australian transmitter styles and pick up the widest range of free-to-air channels. Since it winds up and rotates manually from inside the caravan, operation is easy to master. And because the Sensor HV is capable of receiving analogue, SD and HD signals, it virtually guarantees that you'll never miss out on the footy or your favourite program again.

A motif of elegant simplicity permeates the design concept of The Track's bedroom configuration; classic white and dignified lines. Considerate overnight accommodations are brought to you by way of a full queen-size, walk-around bed fitted with an innerspring mattress. A divider curtain separates your sleeping area from the rest of the caravan for a comforting level of privacy, while the van's arched ceiling provides extra internal height and creates a more open and spacious feeling throughout.

### UNIQUE FEATURES

- DUCTED GAS HEATING
- HUGE SLIDE-OUT ROOM
- FRESH NEW INTERIOR
- EXTRA LARGE SHOWER
- LEATHER UPHOLSTERY STANDARD
- BARRELED CEILING DESIGN

# RV PROFILE

CELL CARAVANS THE TRACK

## LAYOUT KEY

1. Queen-size bed
2. Slide-out lounge
3. Sink
4. Cooktop
5. Fridge/freezer
6. Toilet
7. Shower
8. Vanity

With wide open spaces inside that invoke a look and feel akin to luxury apartment-style living, you'll run the risk of forgetting you're actually far from civilisation. The Track takes advantage of this already roomy floorplan and ups the ante by including a slide-out club lounge that extends to add even more useable area to your layout. Leather upholstery comes standard, so you can choose from either a modern and fresh dove grey (as pictured) or a classic creamy dove colour. The barreled-interior roof gives you increased headroom of up to 6ft 9in and has the advantage of promoting water drainage.

## INTERNAL FEATURES

- FRIDGE:** Dometic 185L three-way AES
- SINK:** Stainless steel
- COOKING EQUIPMENT:** Three-burner stove + microwave
- HEATING/COOLING:** Aircommand Ibis reverse-cycle, ducted gas heating
- ENTERTAINMENT SYSTEM:** 22in TV + Fusion 700 Series; CD/DVD/iPod connectivity
- LIGHTING:** LED throughout
- SMOKE ALARMS:** Yes
- CABINERY:** White cabinetry from the Martha Stewart collection
- LOUNGE:** Leather upholstered, slide-out club lounge
- PRIVACY SCREENS:** Curtain divider to bedroom
- SLEEPING CONFIGURATION:** Queen-size innerspring, dinette converts into additional single bed
- PRIVACY DOOR:** Solid door to bathroom
- BATHROOM CONFIGURATION:** Ensuite w. separate toilet and shower

The Track's 12V front jack and stabilising legs makes setting up and packing down a breeze. You can enjoy the thrill of spontaneous stops here and there along the way whenever you discover a place that looks like fun to set up camp for the night. With its fully welded aluminium frame, insulation throughout and Cell's new moulded fibreglass cap, aerodynamically designed for ease of towing. The Track is also the kind of van you can rest comfortably inside anywhere, trusting that it's been built strong to endure the unique conditions of our Australian climate.
