

LUXURY IN MOTION

Experience all the comforts of modern living as you thrill to the open-ended freedom of adventuring on your own terms

Since 2010, Cell Caravans has been sourcing the most cutting edge designs and innovative technologies from around the world. Their team of in-house designers takes absolutely everything into consideration to make your dream van, from Australia's distinct travel conditions to your interior design

requirements, not to mention livability and practicality. This process means Cell has been able to offer nomads here the widest variety of unique features and high-performance functionality with vans that are also perfectly suited for dependable touring.

The Villa is no exception to Cell's rather lofty status quo. From the bar-

relled roof and slide-out lounge that open up the already spacious floorplan to even more comfortable living space, to the convenience of a full rear ensuite with separate shower and toilet plus a well-equipped kitchen and comprehensive entertainment system, you'll be right at home inside your own rolling Villa, no matter what direction you're heading in.

The Villa's club-style lounge slide-out is upholstered in comfortable PU leather and extends electronically to significantly open up the interior living space inside the van. You'll never have to bother with wind-down legs again as the slide-out can be controlled with the touch of a button. The lounge's table can also easily be lowered for conversion into an extra single bed.

The full rear ensuite within the Villa is highlighted by a number of standout features like its separated shower and toilet, and a washing machine that is included as standard. The extra-large shower is fitted with a glass shower screen and door and along with comforts like a Dometic cassette toilet, glass bowl and stainless steel tapware, the space has a real at-home look and feel.

UNIQUE FEATURES

- SLIDE-OUT CLUB LOUNGE
- SWIVEL TV/ENTERTAINMENT UNIT
- ADDITIONAL OUTDOOR KITCHEN
- HUGE TUNNEL BOOT
- BARRELLED ROOF FOR MAXIMUM HEIGHT
- GEL-COATED FIBREGLASS EXTERIOR

Sometimes the weather outside is just too lovely for spending meal times indoors, so Cell Caravans has included a full exterior kitchen ideal for evening entertaining and long summer nights. With a dedicated two-burner gas stove and separate sink; any time becomes the perfect time for a campsite cook-up.

You'll enjoy a super-smooth ride and incredibly consistent handling thanks to the Villa's intuitive TrailAir suspension. Working in perfect harmony with the van's 15in wheels and tyres and supported by durable 12in electric brakes, the Villa comes built on a foundation that's tough-as-nails and has been designed specifically for high-calibre performance.

The Villa's ergonomically-designed kitchen area is conveniently laid out and well equipped with a three-burner Thetford Spinflo gas powered cooktop complete with its own recessed glass lid. You also get a full size microwave and beautiful stainless steel double sink with a separate tap for filtered drinking water, an extended mixer tap and included sink covers.

TECHNICAL SPECS

MAKE/MODEL: Cell Caravans The Villa
EXTERNAL BODY LENGTH: 7.03m (23ft)
EXTERNAL WIDTH: 2.35m (7ft 8in)
EXTERNAL HEIGHT: 3.20m (10ft 6in)
TARE WEIGHT: 2400kg

GAS CYLINDER SIZE: 2 x 9kg
ELECTRICAL SYSTEM: 105amp AGM battery + Epower charger

The sleeping configuration on board the Villa is centred on a wildly comfortable full queen-size bed there to welcome you to sleep after a busy day of touring. Robes and overhead storage compartments are fashioned from special Martha Stewart white cabinetry while stylish S7 windows from Dometic with built-in fly-screens and sun shades offer gorgeous views all around.

Forest Oak wood laminate flooring and energy efficient LED lighting throughout lend an extra level of style and class to the Villa's roomy interior. You'll also be able to keep temperatures inside exactly where you like them too, thanks to the impressive reverse-cycle capability of an Ibis air conditioner from Aircommand and a ducted gas heating system.

RV PROFILE

CELL CARAVANS THE VILLA

With such a well equipped kitchen, Cell Caravans wants to make sure you've got plenty of reliable storage space for your food and beverages, so they've included this massive 185L capacity fridge and freezer combination. This Dometic model is managed by automatic energy selection (AES) that intuitively chooses between your available energy sources to optimise its cooling performance.

Even with its elevated ground clearance, getting in and out of your Villa is easy thanks to a couple of intelligent design elements. The door itself has been built extra-wide for greater accessibility with two-way fly-screen entry. A folding, three step ladder from Tread Lite opens down easily to give you reliable footing all the way up.

The frame on the Villa is made from welded aluminium and insulated with foam brick sandwich panel insulation. The floor, walls, and roof are all fully insulated making for an extremely temperate and cosy living abode.
